DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 16-27 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:
2. Claims 1-15 were directed towards a print producing apparatus comprising an apparatus to generate a second character information by applying a first processing to a first character information and to generate a second image information by applying a second processing being different from the first processing.
3. Claims 16-27 are directed towards a method of producing a print by exposing an image onto a photosensitive material, comprising extracting character image data and pictorial image data separately from original image data.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 16-27 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The rejections of claims 1-15 remain as previously stated.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2622

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
